The numbers behind this list

Every price on the front page is anchored to published 2026 US industry data — this page shows where each number comes from, and how wide the market band is. Where you land inside a band is your market position, your costs and your call.

Service	This list	2026 US band	Sources
Women's cut & finish	\$70	\$45–95	SalonsRated; StyleSeat
Men's cut	\$40	\$30–50	SalonsRated
Kids' cut	\$25	\$15–30	SalonsRated
Blowout	\$45	\$20–65	SalonsRated
Single-process color	\$120	\$80–200	SalonsRated; Yelp
Partial highlights	\$100	\$60–150	SalonsRated
Full highlights	\$200	\$125–400	Yelp
Beard trim	\$12	\$9–14	SalonsRated

Bands are a synthesis across the named sources; individual publishers' own ranges sit above or below. Verified September 2026 · full database: mainstreettoolbox.com/benchmarks/service-pricing-2026/

How to work this list

Price your chair, not the market

Your real cost per bookable hour = (booth rent or commission target) ÷ booked hours. Services below that number are charity, and charity doesn't buy product.

Color is the margin engine

Highlights take 2–3× a cut's time — price them honestly at 2–3×. A \$200 full highlight is a \$70 cut with more chair time, not a luxury.

Raise with a new menu

Announce two weeks ahead, raise the underpriced services most, keep the increase under 10%/year for regulars.

Commission negotiation

New stylists keep 40–50%, moving toward 60% with a full book — that's the standard ladder. Know your number before the lease conversation.

Retail adds quiet revenue

50–100% margin on retail products adds 5–10% to revenue with zero chair time.

US pricing across the map — what the data shows

National bands hide huge regional spreads. These are the published data points for this trade — use them to place your city on the map.

Market / region	What the data shows	Source
National baseline	Cut \$15–100 by tier; women's \$45–95 typical; color \$80–400 by type	SalonsRated; StyleSeat; Yelp
Chain vs metro	Cost Cutters-type chains sit at the low end; NYC/ upscale independent salons several times higher	SalonPriceList; SalonsRated
Booth rent spread	\$400–1,200+/month depending on market and salon position	MTB guide synthesis

Regional points are as published by the named sources. Where your city isn't listed, the coastal/metro premium pattern is the planning heuristic — then validate locally (next page).

How to judge YOUR local market — the five-step method

1. **Start from the national band** — pages 1–2 of this kit.
2. **Apply the regional adjustment** — coastal metros +20–50% across our research; small towns slightly under. Your state's cost-of-living index is a reasonable proxy.
3. **Compute your cost floor** — (your loaded hours + materials/supplies) for the job. No quote below the floor, ever. It's the line between a business and a hobby.
4. **Validate locally** — three published local prices (Angi/HomeGuide zip-level or competitor pages) tell you where the market actually clears.
5. **Set your band and review quarterly** — booked out two weeks straight? Move up. Empty for a month? Your floor is above your market.

Worked example — Setting your chair rate, independent booth-rent stylist, Denver

Step 1. Target income: \$60,000/year → \$5,000/mo → \$1,250/wk.

Step 2. Capacity: 30 bookable hours × 6 hrs productive/day ≈ 25 services/wk at your mix.

Step 3. Cost floor: rent \$400/wk + supplies 12% → your average service must gross ≥ \$70 to clear \$55 net.

Step 4. Menu: cut \$65, color \$140, highlights \$200 — weighted mix averages \$85/service → \$2,125/wk gross, ~\$1,575 after rent and supplies. Raise color when booked out 2 weeks.

Your chair is a business with one employee. The menu is just the math made visible.

Strategy — the five plays that move the number

Price the chair-hour first

Every service price must clear your chair-hour cost plus margin. Services below it exist only to fill gaps between color appointments.

Color is the margin engine

Highlights take 2–3× a cut's time — price them at 2–3×. A \$200 full highlight is a \$70 cut with more chair time, not a luxury.

Raise with a new menu

Two weeks' notice, under 10%/year for regulars, biggest moves on the underpriced lines. A new printed menu makes it policy, not a negotiation.

Retail is the quiet raise

50–100% margin on take-home product adds 5–10% revenue with zero extra chair time.

Know your commission ladder

40–50% keep as a new stylist, 60% with a full book — the standard ladder. Your book is your leverage; track it.
