TRADES

32

NAMED SOURCES

EDITION 1 · SEPTEMBER 2026

How to use this database

- Every row is a **band, not a price**. Your market, your cost structure and the job in front of you decide where inside the band you land.
- **Confidence grades:** ★★ = cross-checked across two or more independent named sources · ★ = named industry sources or synthesis across our cited guides · ★ = working guideline (use to sanity-check, not to quote) · ◆ = arithmetic rule (definition, not market data).
- Where a publisher's own range differs from our band, that is expected: our band is the **synthesis** across sources. Every source is named so you can check the raw numbers.
- US national ranges unless noted. Coastal metros typically run 20–50% above; small-town markets slightly under.

Method

Bands are compiled and cross-checked from public industry cost guides (Angi, HomeGuide, LawnStarter, Thumbtack, HomeAdvisor, Jobber and others), trade-operator communities (LawnSite, Reddit operator forums), and Main Street Toolbox's own cited guides (cleaning prices, post-construction rates, food cost, booth rent vs commission). Ranges were last verified **September 2026**. Nothing in this document is a manufactured number: if we could not source it, it is not here.

Cleaning & Home Services

Service / Metric	2026 band	Sources	Conf.
House cleaning, standard	\$120–\$280 per visit	HomeGuide; Housecall Pro; Thumbtack (one-time \$174–256)	★★★
