NAMED SOURCES

EDITION 1 · SEPTEMBER 2026 · QUARTERLY REFRESHES INCLUDED

What this adds beyond the free page

The free page at mainstreettoolbox.com/benchmarks/ shows our synthesis bands. This database adds the **detail behind them**: six extra rows of snow-removal and painting depth not on the page, a **"raw ranges as published"** column showing exactly what each source publishes (so you can see the spread, not just our synthesis), a **filterable Excel workbook**, and **free quarterly refreshes** for buyers.

How to use

- Every row is a **band, not a price** — your market, costs and the job decide where inside it you land.
- **Confidence grades**: ★★★ = cross-checked across 2+ independent named sources · ★★ = named sources or cited-guide synthesis · ★ = working guideline · ◆ = arithmetic rule.
- The **raw column** shows each publisher's own range where we recorded it — a skeptical reader can see the spread, not just our conclusion.
- US national ranges unless noted. Coastal metros run 20–50% above; small towns slightly under.

Method

Compiled and cross-checked from public industry cost guides (Angi, HomeGuide, LawnStarter, Thumbtack, HomeAdvisor, Jobber and others), trade-operator communities (LawnSite, operator forums), and Main Street Toolbox's own cited guides. Last verified **September 2026**. Nothing here is a manufactured number: if we could not source it, it is not here.

Cleaning & Home Services

Service / Metric	2026 band	Raw ranges as published	Sources	Conf.
House cleaning, standard	\$120–\$280 per visit	HomeGuide \$120–280 · Housecall Pro \$120–280 · Thumbtack one-time \$174–256	HomeGuide; Housecall Pro; Thumbtack (one-time \$174–256)	★★★
